winter renews the old appeal, that ever follows this inclement senson, for so sotive efforts in behalf of the poor.

active efforts in behalf of the poor. We are, perhaps, justified in saying that the coming winter will be one of great hardship to this class, which numbers many deserving people. Fuel, provis-ions and clothing will be high, and there are indications of an unusually severe winter. Those who have been favored by fortune can be much great favored by fortune can do much good when the cold weather sets in. The abundance of money is a matter of gen-eral notoriety, but it should not be for gotten that there are hundreds who have never found an entrance to the charmed circle, where money was for distribution to the bold and skillful. They have either found labor unattainable, or have been visited by sickness and other misfortunes. Able-bodled men will not find it difficult to get work and ample compensation, but women, and especially those who are in ill health and with young children dependent and ample compensation, but women, and especially those who are in ill health and with young children dependent upon them, will be seriously embarrassed to make "both ends meet!" till the return of spring. In New York, a "Working-Women's Protective Union" has been formed, and put in successful operation. One of its chief objects is to obtain renumerative labor for members of their own sex. Such an association may do much, but thore still is a wide margin for philanthropy here, and we feel that persons of means in Wheeling will find out deserving subjects of aid, and extend to them a liberal charily.

IN THE CITY .- Joseph S. Wheate, Esq. tary arrest at Cumberland, Md., on a charge of having used, about election times, in a speech at New Creek, disloyal language. After being held in arrest for several days by the officer in command at Cumberland, Mr. Wheate was unconditionally released. He indignantly denies baving ever used language unbecoming, that which his record, he claims will prove him to be a first class Unión man. He says his arrest was the result of some personal pigen, and that although he could not learn the names of the parties who complained against him, yet he says he has a good idea who they were. We are heartly glad that our old friend is out of his troubles, and in common with his many friends will be pleased to hear of his future success.

"THAT'S THE IDEAH."-The other day a friend of ours stopped us on the street, and, with a most accommodating air, enquired if we wanted a "local."— In our most inimitably courteous man-ner, we, of course, replied in the affirmner, we, of course, replied in the affirmative, and began to prepare ourselves to secure the item in view. We led off by enquiring, "where is the local?" The reply was that we would find one at the office of our cotemporary up street. Of courtee we were sold, and were forced to content ourselves with the retort that it was "right good—for him." However, we considered the joke not so bad, the more especially as it has afforded us an item, and we do think auch uttempts at wit perfectly adorable, the more especially when we reflect that the same joke was played on our up-street neighbor.

AN IMPORTANT RAIL ROAD ARRANG MENT.-The Baltimore & Ohio Rail Road Company, with commendable and characteristic enterprise, have perfected an arrangement by which the much-needed and long-desired railroad conneeded and long-desired railrond con-nection can be made at Bellair by pas-sengers going West, or those coming to this city. Hereafter, trains will leave here, to connect at Bellair with trains on the Central Ohio R. R. at, 4.40 a. m. and 3.40 p. m., and will leave Bellair, on the arrival of trains on the same road, at 11.40 a. m. and 10.25 p. m. The importance of this arrangement will be perceived readily by the travelling pub-lic, as connections can now be made, and truch time saved over the old ar-gangement.

A VALUABLE OIL STRIKE,-From a gentleman from Pleasants county, of

this State, who was in the city yester-day, we learn that a man named Husps, who has recently been sinking an oil well on Horseneck, in the above named well on Horseaeck, in the above named country, struck oil the other day at a depth of 33 feet. The cost of boring the well was \$30. It is said to be a 100 barrel well. This is the best oil strike we ever heard of, and is certainly a fortune to the owner. We learn, also, that Mr. Husps had previously invested about \$10.00 in non-paying wells, and be thinks it now about time he should strike a sets.

LOOK OUT FOR YOUR VALUES .- A new enterprise has been started by the professional thieves who "work" the railroad cars. When a train arrives at a stopping place, these fellows are on the watch for vallese or carpet-bags lying on the seats or hanging on the hooks, but not under the eyes, of their owners. When the ears stop, they seize them hastily, as if they had arrived at their destination, and jump off the cars. We have heard of some such cases within a few days. It is evidently a new dodge of the thieves, and will be tried all over the country until exposed by the newspapers. Look out for them. railroad cars. When a train arrives at
